ALSO AVAILABLE IN LARGER SIZES:

8" – 12" (200mm – 300mm) to suit dairy tube

SCHEDULE 10 AND SCHEDULE 40 PIPE PURGE SETS ALSO AVAILABLE

WE ALSO OFFER CUSTOM MANUFACTURING TO MEET YOUR SIZE REQUIREMENTS

FEATURES & ADVANTAGES

- Fast purge times
- Suitable for purging pipes, elbows and fittings
- High quality food grade white nitrile discs
- Includes both flexible & rigid purge rods manufactured from lightweight aluminium for strength and durability
- Insulated steel cable with swivel bolt snap
- 10 metre purge hose with brass flow meter fitting at one end and purge pipe fitting at other end
- Replacement discs can be manufactured quickly and cost effectively to meet your size requirements

This purging system has been designed to reduce both inert gas use and purging time using food grade white nitrile rubber discs. It ensures that the disc remains tightly fitted inside the pipe wall creating an effective seal.
